

DAVID CLARK
Director Business Development and Label Acquisitions
(Uncompensated)

David Clark is Director Business Development and Label Acquisitions for Genre Records, LTD and Genre Worldwide Publishing, LLC, a Recording Label, and Music Publishing Company.

In this role Mr. Clark works in a capacity that provides music services to corporations and independent recording Artists, along with organizations that procure music. He also consults regularly with executives from a variety of fields to help create synergistic solutions to problems related to the music industry. His experience in the Administration of several Business entities, coupled with his formal learning allows him the tools needed in today's musical environment.

"It has been my experience that those "Labels" that take the time to know who their demographic consists of, and acknowledges the same; are the ones that will succeed in the current recording industry. Genre Records is just this sort of Label. They have not only acquired an outstanding catalog of music but have the sound infrastructure, and knowledge base of any company I have been associated with." It is my pleasure to work alongside these great Artists and the Executives within the Label."
